RECORD OF REVISION

MAUI STORM WATER MANAGEMENT PROGRAM PLAN		
Revision Date	Description	Sections Affected
October 2023	State of Hawaii Department of Transportation, Highways Division, Maui District has streamlined its naming and reference to be "State of Hawaii Department of Transportation, Highways Maui District (henceforth referred to as DOT Highways Maui District and also known as HWY-M). The word "Division" has been purposely excluded from the name. References to the word "Division" have been removed from this document except when referencing official state documents that still use the former name (i.e., connection and discharge permits, Construction BMP Field Manual).	Entire Document
	DOH issued Maui District a new MS4 NPDES permit number HI 22KG717 on August 14, 2023. The previous permit number HI 15KE674 was replaced with HI 22KG717.	Cover Page, Title Page, and Section 1 (Overview of Stormwater Management Plan)
	Footers have been updated to reflect the document's revision date and the collective name for DOT Highways and Harbors (Maui District).	Entire document except for state manuals and other documents that have been included in the appendices.
